KEEP OUT OF REACH OF CHILDREN

### CAUTION

SEE ADDITIONAL PRECAUTIONARY STATEMENTS

**READ ENTIRE LABEL BEFORE EACH USE**  
**USE ONLY ON DOGS, PUPPIES, CATS, KITTENS**  
**SHAKE WELL BEFORE USING.**

### PRECAUTIONARY STATEMENTS HAZARDS TO HUMANS CAUTION

Harmful if swallowed or absorbed through skin. Avoid contact with skin, eyes, or clothing. May cause dermal sensitization (skin allergy).

### FIRST AID IN HUMANS

**If In Eyes:** Flush with plenty of water. Get medical attention if irritation persists.

**If On Skin:** Remove contaminated clothing and wash affected areas with soap and water. Get medical attention if irritation persists.

**If Swallowed:** Call physician or Poison Control Center. Drink 1 or 2 glasses of water and induce vomiting by touching the back of the throat with finger. Do not induce vomiting or give anything by mouth to an unconscious person.

### HAZARDS TO ANIMALS CAUTION

Sensitivities may occur after using ANY pesticide product for pets. If signs of sensitivity occur, bathe your pet with mild soap and rinse with large amounts of water. If signs continue, consult a veterinarian immediately. Some cats may be sensitive to products containing pyrethrins. Excessive salivation and ear and paw flicking may occur; however, these effects are temporary and not harmful. May cause dermal sensitization (skin allergy).

### FIRST AID IN ANIMALS

Consult Wellmark at 1-800-248-7763, a veterinarian, or an animal poison control center.

### PHYSICAL HAZARDS

Combustible. Do not use or store near heat or open flame.

### DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling

## FOR DOGS AND CATS

### FOR FLEAS

A light even coverage of the hair coat will provide effective flea control. For best penetration, ruffle the coat while spraying against the natural lay of the hair. Cover animal's eyes with hand. [ICON] With a firm fast stroke, spray head, ears, and chest. With cloth, rub into face around mouth, nose, and eyes. Then spray the neck, middle and hind quarters, finishing with legs and tail last. Avoid spraying rectum and genitals. Apply at the rate of 1 or 2 squeezes of the trigger sprayer per pound of body weight. For larger dogs, spray until damp, not saturated. Do not allow animals, cats in particular, to become chilled. Repeat every two months, if necessary.

### FOR TICKS

Make sure spray thoroughly wets individual ticks.

## FOR PUPPIES AND KITTENS

### FOR FLEAS

Leaving the eyes, nose, and mouth exposed, treat puppies and kittens weighing less than three pounds by wrapping the animal in a towel that has been lightly sprayed with PETCOR® Flea Spray, for 5 to 10 minutes. Or lightly spray a brush or cotton ball and work thoroughly into the hair coat. Fleas may then be removed from the coat by picking or combing. Puppies and kittens over three pounds may be treated the same as dogs and cats as described above. Repeat every two months, if necessary. Do not allow animal to become chilled. Do not use on puppies and kittens under 12 weeks of age.

Consult a veterinarian before using this product on debilitated, aged, pregnant, nursing, or animals on medication.

### STORAGE AND DISPOSAL

Do not contaminate water, food, or feed by storage or disposal. Do not store near heat or open flame. Store away from children and animals. Do not reuse empty container. Wrap and put in trash.

### WARRANTY

Seller makes no warranty, express or implied, concerning the use and handling of this product other than indicated on the label. Buyer assumes all risks of use and handling of this material when such use and handling are contrary to label instructions.
