DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.
Do not use in and around electrical equipment due to the possibility of shock hazard.

USE RESTRICTIONS

· Do not enter or allow others to enter treated areas until sprays have dried. · Do not allow people or pets to enter treated areas until vapors, mists, and aerosols have dispersed, and the treated area has been thoroughly ventilated. · Remove pets, birds, and cover fish aquariums and ornamental fish ponds before spraying, and turn aquarium systems off. · Do not apply this product in a way that will contact adults, children or pets, either directly or through drift.

OUTDOORS

Shake twice only before using. Hold can upright. Apply in short bursts. Do not use on plastic, foam, asphalt roofing shingles, vinyl siding or auto paint. Damage may occur. Vinyl siding - please read carefully: this product is a water based product. During spray application to nest, if inadvertent contact to vinyl siding occurs, rinse immediately with water.

To Kill Wasps: Apply at dusk or early morning when insects are least active. Hold can upright. Point valve opening away from face. With wind at back, aim at nests in trees, bushes, under eaves, chimneys, cracks or crevices.

To Kill Yellow Jackets: Yellow Jackets make their nests in the ground, dead tree stumps, railroad ties, walls or similar structures. During daylight hours, watch them closely to determine location of nest entrance. Wait until dusk or early morning when insects are at rest. Spray entire can down hole from a close enough distance to direct 100% of spray into hole.

To Kill Hornets: Unless you can clearly see the opening at the bottom of the hornets' nest, never use a hornet spray (on the nest) as hornets may escape and attack you. Hornets usually make their nests in trees, shrubs and under eaves. During daylight hours, determine location of nest entrance. Wait until dusk or early morning when insects are at rest. Direct foam spray into entrance hole. As hornets fall out continue spraying until no more are visible or the can is empty. Immediately leave area.

STORAGE & DISPOSAL

STORAGE: Store in a cool, dry place (preferably locked) storage area inaccessible to children and pets and away from heat, open flame, and other sources of ignition. Do not incinerate or puncture! **DISPOSAL:** Nonrefillable container. Do not reuse or refill this container. Offer for recycling, if available.

PRECAUTIONARY STATEMENTS

Hazards to Humans & Domestic Animals

CAUTION: Harmful if swallowed, inhaled or absorbed through skin. Causes moderate eye irritation. Avoid contact with eyes, skin or clothing. Avoid breathing vapors or mists. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum or using tobacco.
